

Research participants wanted

Are you

- Age 14-24?
- Have a diagnosis of JIA?
- Have had specialist rheumatology care/treatment?

My name is Charlotte Dimond and I am undertaking PhD research to explore what life is like for young people who are diagnosed with juvenile idiopathic arthritis. I am looking for young people to talk to me about their experiences.

Interviews will take place over Zoom for no more than **1 hour** of your time.

If you are interested in taking part or for more information, please contact me on: charlotte.dimond@york.ac.uk
